

REQUEST FOR COUNCIL ACTION

MEETING DATE: July 17, 2023

PREPARED BY: John Hagen, P.E., PTOE, Transportation Operations Engineer

AGENDA ITEM: MnDOT TH 169 at 63rd Avenue Bridge Replacement Project
Cooperative Construction Agreement
Resolution No. 23-115

PREVIOUS ACTIONS:
None

RECOMMENDED COUNCIL ACTION:

Motion to adopt Resolution No. 23-115 approving MnDOT agreement No. 1053216 and authorizing its execution.

COMMENTS:

As part of the TH 169 at 63rd Avenue Bridge Replacement Project, MnDOT will be replacing the 63rd Avenue bridge over TH 169. In addition to the bridge replacement, the acceleration lanes along TH 169 will be extended, a multi-use trail will be added to 63rd Avenue between Magda Drive (in Maple Grove) and Mendelssohn Avenue (in Brooklyn Park), and ADA improvements will be made within the interchange area.

During the design development of the project, the Cities of Maple Grove and Brooklyn Park approached MnDOT about the addition of each city's name on the bridge similar to what was done on the Dayton Parkway bridge over I-94. MnDOT agreed to incorporating the names of each city to be placed in concrete as part of the architectural elements of the bridge, provided that the two cities agreed to split the additional costs which were estimated to be \$11,000. The City of Maple Grove's portion of this additional cost is \$5,500, with the City of Brooklyn Park picking up the remaining \$5,500.

The total estimated cost of the TH 169 at 63rd Avenue Bridge Replacement Project is \$5.3 million. Funding for the TH 169 at 63rd Avenue Bridge Replacement Project will be primarily from MnDOT, with the City of Maple Grove cost participation required for the city's portion of utility adjustments within the 63rd Avenue / Magda Drive intersection, and the architectural concrete emblems to be included on 63rd Avenue bridge by the Cities of Maple Grove and Brooklyn Park. The city cost share for these items is \$6,712.20, which will be funded by a combination of trunk utility and trunk transportation funds.

Below is a summary of the city cost share associated with the project.

Item	Cost
Construction Costs	
Utility Adjustment Work Items	\$715.00
Architectural Concrete Emblem	\$5,500.00
Total Construction Costs	\$6,215.00
Construction Engineering (8%)	\$497.20
Total City Cost	\$6,712.20

It is recommended that Council adopt Resolution No. 23-115 approving MnDOT Agreement No. 1053216 and authorizing its execution.
